Subject: RE: [SIGNED] EPA Approval: Draft FFS Work Plan for Beaver Ponds Area at Leviathan Mine

Good morning Ken,

As you know a lot of the dam material is debris without sediment, and also that the sediments haven been tested, and will be tested to determine levels of any contamination, if any.

You ask an excellent question about the overall use of Forest Service lands, and I am copying Tony Brown and his Contractor Marc Lombardi, to provide you with the additional requested details.

Best Regards,

Lynda Deschambault

Subject: RE: [SIGNED] EPA Approval: Draft FFS Work Plan for Beaver Ponds Area at Leviathan Mine

Sorry this message is so late, I see this approval letter allows removal of dam material from ponds 3-5 and placement of this dam material with its associated arsenic laden sediments on FS uplands. Will this material be stored on liners or on the ground?? Are these details not part of the approval process?

Subject: FW: [SIGNED] EPA Approval: Draft FFS Work Plan for Beaver Ponds Area at Leviathan Mine

Hello Norm,

As discussed, Here is the approval of the work in the Beaver Pond Area.

Looks like the Chairman was copied. Copying all.

Lynda

Subject: EPA Approval: Draft FFS Work Plan for Beaver Ponds Area at Leviathan Mine

Dear Tony,

Please find attached EPA's approval for the planned FFS work in a portion of the beaver ponds area. Please note this approval is subject to Atlantic Richfield's satisfactory resolution of EPA comments provided in this correspondence. Please continue to keep EPA informed of the planned schedule for this work,

Thank you,

Gary
